LETTER REGARDING SUBMISSION OF SUBSTITUTE TERMINAL DISCLAIMER

Commissioner for Patents
POB 1450
Alexandria, VA 22313-1450

April 28, 2005

Sir:

Applicants, through their undersigned representative, respectfully request acceptance and formal entry of this paper including the accompanying Terminal Disclaimer in connection with the above-identified allowed application. Since the accompanying Terminal Disclaimer is being submitted as a substitute of an earlier, original disclaimer filed in the present application, which included payment of the appropriate fee amount directed thereto, at that time, it is requested therefor such fee amount be applied to cover the present Terminal Disclaimer. If, however, a separate fee is required to cover the filing of the current Terminal Disclaimer, it is respectfully requested that it be charged to the Account of the below-named law firm, as indicated hereinbelow.

The new (substitute) Terminal Disclaimer is being submitted to reflect the formal change in assignment in the above-identified application from **Hitachi, Ltd.** to that of **Renesas Technology Corp.** Although the Assignment was executed on December 20, 2004 by an authorized signing officer of the original assignee, Hitachi, Ltd., it was not delivered to the below-named law firm for filing in the USPTO for recordation until December 29, 2004, which is subsequently to the filing of the earlier, original Terminal Disclaimer as part of the response submitted on December 27, 2004. The Assignment was formally recorded in the United States Patent and Trademark Office on December 30, 2004, which is subsequent to the submission of the earlier Terminal Disclaimer. Accordingly, it has become necessary to submit a new (substitute) Terminal Disclaimer for purposes of reflecting the correct assignee's name.

In fact, the recent newly-executed Assignment, a copy of which (including the Recordation Cover Sheet) is attached hereto along with a copy of the received Notice of Recordation of Assignment document, was recorded in connection with each of the U.S. patent application(s) and/or Letters Patent in "Attachment A" of the Assignment, the list of which is shown as having been recorded on December 30, 2004 in the attached Notice of Recordation of Assignment document. With regard to this, it is noted that the referred to U.S. Patent No. 5,617,365 in the originally executed Terminal Disclaimer is also listed in the assignee's newly-executed Assignment. It is noted, also, the newly-executed Assignment not only includes the transfer of full ownership from the original assignee, Hitachi, Ltd. to Renesas Technology Corp. in connection with the named listings in Attachment A of the new Assignment but, in fact, covers, for example, continuations/divisionals thereof as well, beginning from the original U.S. patent Application Serial No. 07/419,399 in the

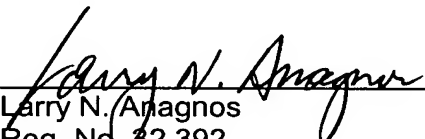

line of continuing applications to which benefit has been requested under 35 U.S.C. §120. (The opening paragraph on page 1 of the present specification details the continuing data information pertaining to the above-identified application.)

Therefore, the commonality of ownership in terms of the requirement pursuant to 37 CFR §1.321 in connection with filing a Terminal Disclaimer to obviate a judicially created double patenting rejection has been met.

The filing of the Substitute Terminal Disclaimer as well as executing the same by an attorney of record of the below-named law firm is in proper form consistent with the requirements of 37 CFR §1.321(c). Therefore, acceptance and formal entry of this paper including the accompanying properly executed Terminal Disclaimer is respectfully requested.

Please charge any shortage in the fees due in connection with the filing of this paper, to the Deposit Account of Antonelli, Terry, Stout & Kraus, LLP, Dep. Acct. No. 01-2135 (500.28006C10), and please credit any excess fees to such deposit account.

Respectfully submitted,
ANTONELLI, TERRY, STOUT & KRAUS, LLP
